Professional Summary

Final-year B.Tech Computer Science and Engineering student with internship experience in Python development and data analytics, and hands-on experience building AI-powered, backend, full-stack, and biometric authentication applications. Skilled in Python, Java, SQL, FastAPI, Flask, React, PostgreSQL, REST APIs, and computer vision.

Technical Skills

Languages: Python, Java, SQL, JavaScript **Frontend:** React, HTML, CSS
Backend: FastAPI, Flask, REST APIs **Databases:** PostgreSQL, MySQL
AI, LLM & Computer Vision: AI/LLM Applications, OpenCV, MediaPipe
Security: JWT Authentication, RBAC **Data Analytics:** Power BI, Excel
Tools: Git, GitHub, Docker, VS Code **Core:** OOP, DSA, DBMS

Internship Experience

UptoSkills Jun 2026 – Aug 2026
Data Mining & Data Analytics Intern

- Collected, cleaned, and validated recruitment and company datasets using **Excel** and **SQL** for structured data analysis.
- Performed data mining using **browser extensions and public sources**, and analyzed and visualized data using **Power BI** and Excel.

Infosys Springboard 7.0 Jun 2026 – Aug 2026
Python Domain Intern

- Developed the **Expert Decision Replay Platform** using Python, FastAPI, Flask, PostgreSQL, and REST APIs as part of the internship project.
- Implemented **JWT authentication, Role-Based Access Control (RBAC)**, approval workflows, and audit logging.

SmartBridge — AICTE — ServiceNow Jul 2026
ServiceNow Virtual Intern

- Completed hands-on ServiceNow learning instances covering **Administration, Flow Designer, Reports, ATF, and Agentic AI**.
- Gained foundational exposure to **IT Service Management (ITSM)** and enterprise workflow automation.

Selected Projects

AI Placement Platform Python, FastAPI, React, PostgreSQL, Ollama

- Built a full-stack AI-powered placement platform supporting **resume analysis, ATS scoring, job matching, skill-gap analysis, career roadmaps, interview preparation, and coding assessments**.
- Developed modular backend APIs and AI-assisted workflows using **FastAPI, PostgreSQL, and Ollama**, including resume and document processing.

Multifactor Biometric Authentication Python, OpenCV, MediaPipe, bcrypt

- Developed a multi-factor authentication system combining **password, facial verification, and a user-specific secret hand gesture** to secure access to protected resources.
- Implemented real-time biometric verification with **failed-attempt logout, role-based access, authentication logging, and identity-verified password reset**.

Expert Decision Replay Platform Python, FastAPI, Flask, PostgreSQL

- Developed a full-stack enterprise decision-management platform with **REST APIs, approval workflows, and audit logging**.
- Implemented **JWT authentication and Role-Based Access Control (RBAC)** to secure users, roles, and decision workflows.

Education

Narayana Engineering College, Gudur 2023 – Present
B.Tech in Computer Science & Engineering — CGPA: 9.0/10

Krishna Chaitanya Junior College 2023
Intermediate — 94.3%

Z.P.P. High School 2021
Secondary School Certificate (SSC) — GPA: 9.5/10

Certifications & Achievements

NPTEL – Introduction to Quantum Computing: Quantum Algorithms and Qiskit, 2026
Deloitte Data Analytics Job Simulation – Forage
TCS iON Career Edge – Young Professional
ServiceNow Micro-Certification
HackerRank – 100+ coding problems solved; Python (Basic) Certification
